PROFILE

Chris Kim is a seasoned motion graphic designer and media artist with over a decade of experience across broadcast networks, live events, XR, music videos, and post-production. His expertise spans 2D and 3D design, as well as programming, enabling him to craft immersive visuals for VR, AR, and various entertainment platforms. A creative problem solver, Chris thrives in all stages of production, from concept development to final execution. He plays a pivotal role in uniting teams with diverse skill sets, ensuring seamless collaboration to deliver high-quality and impactful visual experiences. His ability to transform challenges into compelling solutions sets him apart in the ever-evolving media industry.

EDUCATION

Honglk University // Bachelor of Fine Arts   2010 - 2016
Degital Media Design
Studied design principles and creative processes across various media platforms, including VR, AR, projection mapping, holography, and visual programming.

California Institute of the Arts // Master of Fine Arts   2016 - 2019
Interactive Media for Performance
Focused on developing interactive media content that seamlessly integrates with live performances and physical environments.

EXPERIENCES

DesignFever // Graphic Designer   2013 - 2013
Designed visuals across multiple platforms, including commercial ads, websites, mobile apps, interactive projects, and conference videos.

Mass Mess Age // Assistant Director   2014 - 2014
Worked as an assistant director specializing in commercial advertising.

Silent Partners Studio // Intern   2018 - 2018
Integrated various software tools to develop real-time compositing and special effects.

Blink-inc // Motion Graphic Designer   2019 - Present
Works as both a motion graphic designer and technical director, creating visuals for live events, managing project structures, and troubleshooting workflow issues.
